

Cornerstone Kiosk

# Campus Beautification and Branding

Create the perfect campus setting that adds to the character and appeal of your college or university.

Cornerstone Kiosks are a creative way to enhance the beauty of your college campus. This can be especially helpful for campus tours by prospective students and their families. Our iconic structures will help brand your campus and allow you to showcase those programs you wish to promote. They can provide maps, information, advertisements, and student's vibrant artwork.

Campus beautification projects like this can give your community a greater sense of pride and a reinforced sense of interconnectedness that will provide long term benefits to your institution.
