

Cornerstone Kiosk

Creative ways to fund your kiosk

Sponsor plaques and grants help make it happen

It takes only four sponsors to completely fund your next kiosk. Sponsors are more than happy to be a part of such a positive and highly visible community project. Sponsors split the capital cost of your new kiosk and for their generosity they receive a beautiful cast bronze plaque displayed for the life of the kiosk. At a minimum sponsorships can reduce the overall cost when budgets are limited.

Another popular funding choice is taking advantage of the many national, state, county and local beautification and revitalization grants. We will work to provide your organization with the details and layouts necessary to complete your application. Some of these popular grants are listed below.

AARP Community Challenge Grant Program
